GETTING STARTED

Welcome

How to use this playbook

PURPOSE OF THIS DOCUMENT

This playbook is the single source of truth for how Global EdTech Services hires, interviews, onboards, and trains new team members. It is designed to be read like a short course — start on Page 1 and work forward, one module at a time.

HIRING PHILOSOPHY

We hire for potential and coachability first, then for skill. Every candidate deserves a fast, respectful, and transparent process — whether they are selected or not.

Recruitment standards — consistent screening and scoring for every role

Expected turnaround times — 48 hrs screening, 5 days interview-to-decision

Recruitment KPIs — tracked weekly on the Hiring Dashboard

Communication expectations — every candidate hears back within 3 business days

How to navigate: Each module opens with a divider slide, followed by step-by-step SOP slides. Wherever you see a VIDEO card, a short 3–3.5 minute walkthrough is available showing exactly how the task is done in our tools.

PIPELINE OVERVIEW

Page 04

LAYER 1 — VISUAL PROCESS FLOW

Recruitment Pipeline Overview

01

Sourcing

Job requirements are converted into a job description and distributed across LinkedIn, Indeed, Internshala, referral networks, and community groups.

02

Screening

Every resume is reviewed against a standard scorecard covering experience, education, skills, communication, location, and salary fit.

03

Interview

Shortlisted candidates are scheduled, interviewed against a structured scorecard, and scored consistently across roles.

04

Selection

Interview scores are reviewed and a hire / reject decision is made within 2 business days of the final interview.

05

Onboarding

Selected candidates receive a welcome email, document checklist, and access to onboarding resources.

06

Training

New hires move through a structured training roadmap with attendance tracking, assignments, and assessments.

07

Offer Letter

Offer letters are generated, approved, and sent digitally for e-signature via Adobe Acrobat.

08

Joining

Final documents are collected, tool access is provisioned, and the new hire officially joins the team.

--- Slide 5 ---

MODULE 1

Candidate Sourcing

Where and how we find great candidates — platforms, posting cadence, referral hiring, and the software tools behind every step.

SOURCING

Page 05

MODULE 1 · CANDIDATE SOURCING

Objective

WHAT IS SOURCING?

Sourcing is the active process of identifying, attracting, and engaging candidates before they apply — through job boards, communities, and referrals.

WHY SOURCING MATTERS

A strong sourcing funnel is the foundation of every successful hire. The wider and more targeted the funnel, the shorter the time-to-hire and the higher the quality of the final shortlist.

EXPECTED HIRING TIMELINE

Job posted within 24 hrs of requirement approval

First qualified applications within 3–5 days

Shortlist finalised within 10 working days

HIRING KPIS

Applications per posting

Qualified-application ratio

Source-to-hire conversion

SOURCING

MODULE 1 · CANDIDATE SOURCING

Recruitment Platforms

LinkedIn

Primary channel for experienced and professional roles; used for both organic posting and paid campaigns.

Indeed

High-volume applications for operational and support roles.

Internshala

Go-to platform for internships and entry-level student hiring.

University Groups

Direct access to fresh graduates and campus talent pools.

WhatsApp Groups

Fast, informal reach into local and niche talent communities.

Facebook Groups

Community-based sourcing for regional and part-time roles.

Telegram Groups

Tech and remote-work focused candidate communities.

Referral Hiring

Our highest quality, fastest-closing channel — always prioritised first.

SOURCING

MODULE 1 · CANDIDATE SOURCING

LinkedIn

WHAT IS LINKEDIN

The primary professional network used for posting roles, searching passive candidates, and running paid hiring campaigns.

WHEN TO USE

Experienced and specialist roles

Leadership and full-time hiring

Employer-brand visibility posts

POSTING FREQUENCY & BEST PRACTICES

Post active roles at least twice a week

Use consistent formatting and hashtags

Respond to applicants within 24 hours

MODULE 1 · CANDIDATE SOURCING

Indeed

EVERYTHING ABOUT INDEED

Indeed is used for high-volume, operational, and support-level roles where fast application flow matters more than passive-candidate targeting. Postings should include clear shift timings, location, and compensation to reduce unqualified applications.

Internshala

HOW IT WORKS

Internshala is our primary channel for internship and entry-level student hiring, with monthly posting cycles aligned to college semester breaks.

MONTHLY POSTING CYCLE

Refresh all live postings on the 1st of every month

Review and update stipend / duration details

Archive filled internship postings promptly

MANAGING MULTIPLE ACCOUNTS

Use the shared HR credentials sheet; never create a personal account for company postings.
